Connected Cyber Resilience

ATOMIUS CONNECT

Resilient Connectivity Technologies Connecting Anywhere to Anywhere

Hyper-connected networking without managing multiple carriers

OMNIA's ATOMIUS CONNECT delivers resilient, high-performance connectivity from anywhere on the planet to anywhere on the planet, without you having to juggle multiple carriers, contracts and support lines.

- **Nearly 2,000** providers
- **190** countries
- **1000+** Data centre locations
- **24x7x365** Follow-the-Sun Managed support

01 | THE CHALLENGE

Global connectivity gets complicated.

- Multiple carriers, contracts, support lines and invoices
- Single-provider dependence creates risk and limits choice
- Different site requirements across countries and regions
- Legacy connectivity slows expansion and cloud adoption

Complex. Fragmented. Restrictive.

02 | THE SOLUTION

ATOMIUS CONNECT: One strategic connectivity layer.

Provider-independent connectivity sourced through the SD-Trust ecosystem and designed around each location, workload and budget

Fibre, Ethernet, 4G / 5G / LTE, Broadband, Radio, Satellite, Microwave → ATOMIUS CONNECT → Sites, Cloud, Apps, Data Centres

- Carrier diversity
- Intelligent routing
- Centralised control

03 | WHAT IT CONNECTS

Global reach. Local precision.

- Global offices
- Remote workers
- Cloud ecosystems
- Data centres
- Branch sites
- Applications
- Customers & partners
- Temporary projects

04 | BUSINESS IMPACT

Resilient connectivity. Measurable advantage.

Expand faster
We deliver connectivity in 190 countries

Improve resilience
Multi-provider options and always-on backup

Simplify operations
One point of contact for support & billing

Optimise performance
Intelligent path selection for critical applications

05 | HOW IT WORKS

Source. Connect. Optimise.

Access → Source → Connect → Manage → Optimise

Per site design. Best fit provider. Diverse underlays. Proactive support. Continuous improvement.

06 | KEY FEATURES

Enterprise-grade connectivity. Built for growth.

- Access to nearly 2,000 telecom providers
- Ethernet, DIA, Broadband, 4G / 5G / LTE , Satellite, Radio, Microwave
- Application-aware routing and priority bandwidth
- Centralised dashboard, real-time analytics and control
- Secure data in transit with Atomius SDWAN & Data Assurance services
- Fully managed or wires-only service options
- Pay-as-you-use and short-term contract options on some technologies
- 1 Gbps and 10 Gbps data centre on-ramps

07 | WHY ATOMNIA

Built for critical connectivity

The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts

ATOMNIA-developed pure-play packet-based SD-WAN

EU SEAL-3 sovereign technology with global design, integration, deployment, management & 24/7/365 support

Flexible solution & terms, eliminates lock-ins

Multi-award-winners for Defence projects **START2Def 2026** & **CAP4Land 2026**

08 | LET'S CONNECT

Are You Ready to connect your business without multi-carrier complexity?

Build a more resilient, future-proof network with global reach and provider diversity – all fully managed for you.

Build, scale and Secure your Network with **OMNIA,** the single platform for Connected Cyber Resilience.

Talk to our team – **we're here to help**
