ATOMIUS CLOUD

One Secure Gateway to Every Cloud

Multi-Cloud Access Without Multi-Cloud Complexity

OMNIA's ATOMIUS CLOUD delivers secure, intelligent access to multiple clouds through one controlled platform, without separate connections to every provider.

One logical gateway | **1,000+ data centres** | **Secure cloud access** | **Pay-as-you-use options**

01 | THE CHALLENGE

Multi-cloud should not mean multi-complexity.

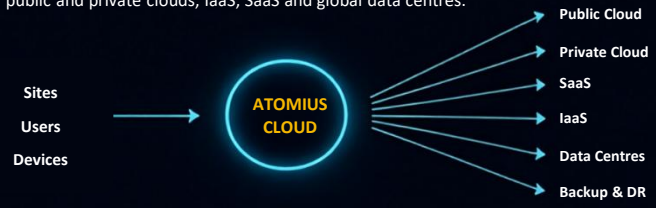

- Separate connections & tools for each cloud provider are task-heavy
- Inconsistent security and policies across cloud environments
- Slow, unreliable routes to critical applications slow productivity
- Growing operational overheads as cloud use expands

More clouds. More complexity. More cost

02 | THE SOLUTION

ATOMIUS CLOUD: Resilient Multi-Cloud Access

A multi-cloud connectivity fabric that turns a single SD-WAN site into a secure gateway for public and private clouds, IaaS, SaaS and global data centres.

Centralised control | Secure on-ramps | High availability

03 | WHAT IT CONNECTS

Every location. Every cloud. One fabric.

Branch offices	Remote users	Public clouds	Private clouds
SaaS applications	IaaS & PaaS	Data centres	Backup & DR

04 | BUSINESS IMPACT

Simplify multi-cloud. Strengthen operations

Reduce complexity
One gateway instead of multiple per-cloud connections

Improve performance
Optimal paths without data centre tromboning

Lower cost
Reduce hardware, cloud links and management tools

Move faster
Provision connections to available cloud and data-centre locations within minutes

05 | HOW IT WORKS

Connect. Control. Scale.

Connect	On-ramp	Secure	Manage	Scale
SD-WAN sites	Cloud access	Inspected & encrypted traffic	Single portal	On-demand expansion

06 | KEY FEATURES

One gateway. 1,000+ destinations. Connect in minutes. Pay for what you use.

- A single gateway to public & private clouds
- Real-time access to SaaS, IaaS and PaaS
- Access to 1,000+ global data centre locations via Console Connect
- Secure the gateway instead of securing each individual cloud
- Cloud connections and regions provisioned within minutes via a secure portal
- Central portal for on-ramps and vital X-connects
- Hybrid-cloud access ports
- Integrated SASE and Data Assurance protection
- Redundant, high-availability cloud access
- Monthly commit or pay-as-you-use billing

07 | WHY ATOMNIA Cloud access without compromise

The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts

ATOMNIA-developed pure-play packet-based SD-WAN

EU SEAL-3 sovereign technology with global design, integration, deployment, management & 24/7/365 support

Flexible solution and terms eliminate lock-ins

Multi-award winners for Defence projects: START2Def 2026 & CAP4Land 2026

08 | LET'S CONNECT

Are you ready to simplify secure access to every cloud your business depends on?

Unlock advanced multi-cloud access with stronger performance, security and control at an affordable price
