ATOMNIA®
Connected Cyber Resilience

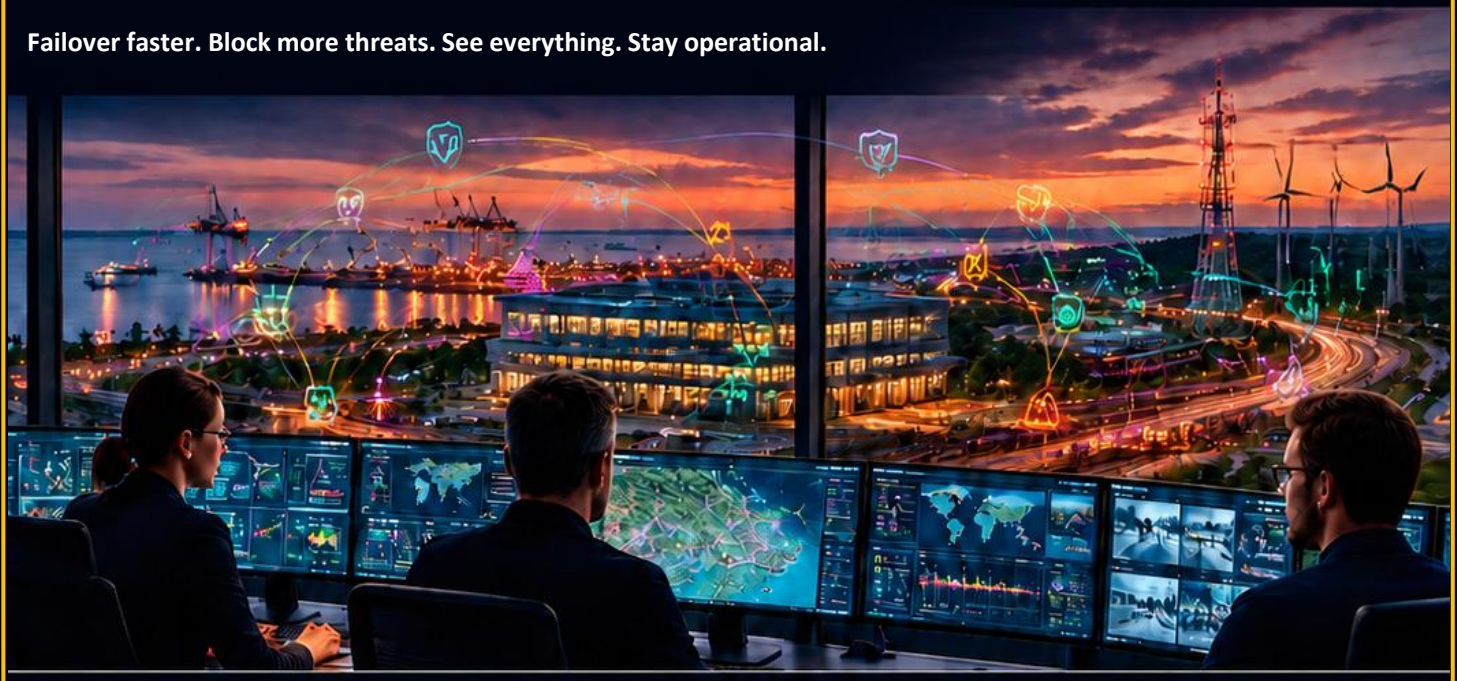

Secure people, places, devices and operations
Connect everything. Stay connected. Full encryption
Total visibility. Always up to date. Re-tech Guarantee

Winners of Belgium Defence Institute's START2Def **award for Best Solution to Protect Critical Infrastructure 2026** and **CAP4LAND 2026**

CONNECTED CYBER RESILIENCE
for GOVERNMENT & DEFENCE

"Belgian innovation that will soon be making a global impact"
Theo Francken – Minister of Defence & Foreign Trade

Failover faster. Block more threats. See everything. Stay operational.

THE CHALLENGE:

The demands of protecting defence, government agencies and critical infrastructure are growing daily, driven by AI-enabled attacks, hacktivism and state-sponsored threats.
Geopolitical shifts can change the risk landscape overnight. Governments and defence organisations need sovereign control of their critical data, infrastructure and connectivity, without becoming dependent on technologies or jurisdictions they cannot control. Cyber resilience must therefore protect not only against attacks, but against disruption, dependency and changing strategic realities.

THE SOLUTION: OMNIA BLACK

Detect, analyse and respond across your entire organisation.

OMNIA BLACK is a high-assurance, sovereign Connected Cyber Resilience platform for government, defence and critical infrastructure. It combines resilient SD-WAN connectivity, integrated SASE cybersecurity, Zero-Trust access, defence-grade quantum-ready encryption, AI-driven cyber command and secure remote, cloud and IoT connectivity in one intelligent platform, keeping critical systems, mission data and communications connected, protected and operational, even in the most demanding environments.

OMNIA's MEASURABLE BENEFITS: Proven. Seamlessly Integrated. Mission Ready

Threat Intelligence
Real-time insights for faster decision-making

Detection Analytics
AI-driven anomaly detection, response & remediation

Best Block Rates
99.9% malware & 100% phishing & ransomware block rates

Always-on Connectivity
Uses all available connectivity simultaneously with failover in 0.3 seconds

Secure Data Facilities
Air-gapped specialist facilities for storing and accessing trusted data

Sovereign Data
Data sovereignty. EU Seal 3 sovereign solution

MISSION AREAS OMNIA SUPPORTS:

- Intelligence
- Medical
- Electronic Warfare
- Transport & logistics
- Communications & IT
- Supply Chains

WHY ATOMNIA:

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Winners of **Start2Def** (Belgian Defence Institute) Best Solution to Protect Critical Infrastructure 2026 and **CAP4Land** 2026
- Bespoke solutions can be developed in-house with quick turnaround
- World-leading technologies seamlessly integrated, then managed & supported 24/7, enabling vendors to be replaced without replacing the entire solution

ASK US ABOUT:

- ✓ Ruggedised NFV hardware
- ✓ On-base, on-the-move & remote Zero-Trust access
- ✓ Purpose-built, air-gapped, in-country gateways
- ✓ Dedicated encryption algorithms for Layer 4 encryption
- ✓ Seamless integration with existing infrastructure
- ✓ Dedicated AI-enhanced Cyber Command platform connected to your SOC & SIEM

Cybersecurity is no longer enough. Connected Cyber Resilience is the logical step.
ONE resilient solution. ONE intelligent device. ZERO compromise.
