ATOMNIA®
Connected Cyber Resilience

# OMNIA CHOICE

## Configurable Cyber Resilience

**OMNIA CHOICE** lets you select the networking, security, threat detection, remediation, response & recovery, defence-grade encryption and secure remote, cloud and IoT access modules you need to create **one** seamlessly integrated and managed solution on **one** intelligent device.

**Sovereign**
EU Seal 3 & data sovereignty

**Compliance**
Enables regulatory compliance

**Cost Effective**
Low-to-no upfronts, PAYG options

**Flexible**
No lock-ins, scale as you grow

## 01 THE CHALLENGE: Demands are rising. Complexity should not.

- Distributed users, sites, clouds and data to connect and protect
- Threats, compliance obligations & resilience expectations keep evolving
- Disconnected tools, vendors and legacy networks slow decision-making
- Scaling should not require rip-and-replace

**Enterprises need defence-grade resilience**

## 02 THE OMNIA CHOICE SOLUTION: Grows and adapts as you do.

One solution seamlessly integrates your choice of OMNIA components, ensuring your business and teams are resilient, always operational, your data protected and threats detected, remediated and resolved.

Locations

Apps & Data
Internet

Re-tech promise | Central governance | Scale on demand

## 03 WHAT OMNIA CHOICE DELIVERS: World-leading technologies.

- Integrated Network & Security in one solution
- Scale sites & users globally in minutes
- 99.9% block rates & 0.3 second failover
- Optimised performance intelligent traffic routing
- Central governance, one-view policy & control
- Cost efficiency, less hardware, lower costs

## 04 BUSINESS IMPACT: More resilience. Less restriction.

| | |
|---|---|
| Stay Protected | Future-ready security for current and emerging threats |
| Stay Compliant | Consistent enforcement across regions and locations |
| Stay in Control | In-country data and sovereign operational control |
| Stay Resilient | Connected Cyber Resilience ensures always-on, secure operations |

## 05 OMNIA CHOICE COMPONENTS: Scalable. Modular. Flexible.

- VENA & VECTA UCPE Device
- ATOMIUS SDWAN
- INTEGRATED SASE
- CYBER COMMAND Platform (OMNIA CCP)
- Defence-grade data encryption
- SASE SNIPER
- ATOMIUS CLOUD
- ATOMIUS CONNECT
- OMNIA IOT CONNECT

## 06 WHY ATOMNIA: Advanced technologies. Expertly integrated.

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Flexible solution & terms, eliminates lock-ins, with low-to-no upfront outlay
- World-leading technologies seamlessly integrated, managed & supported 24/7
- Swap out modules without replacing the entire solution

Winners of Belgium Defence Institute's START2Def **award for Best Solution to Protect Critical Infrastructure 2026** and **CAP4LAND 2026**

## 07 COMPLIANCE & SOVEREIGNTY: Supported By Design

Your requirements. Your architecture. Your resilience. Build a tailored OMNIA solution from the components you need, combining intelligent software with purpose-built in-country gateways for security and resilience, supporting compliance and sovereign control.

**Designed to support NIS2, CRB (UK) & CRA (EU) compliance**

**EU SEAL 3 sovereignty**

## 08 ARE YOU READY: to build Connected Cyber Resilience?

**Talk to our team – we're here to help**
