ATOMNIA®
Connected Cyber Resilience

OMNIA SME

Essential Cyber Resilience, Ready to Deploy.

OMNIA SME brings secure connectivity, integrated cybersecurity and data protection together in one simple, scalable solution. Connect your people, devices, applications and locations securely, wherever they work, while reducing complexity and helping meet compliance requirements. No specialist IT knowledge or multiple solutions to manage. Choose flexible PAYG or As-a-Service pricing and get enterprise-grade capabilities without enterprise-level cost or complexity.

- Low-to-no upfront costs & no lock-in contracts
- Resilient, intelligent networking that reduces downtime
- No in-house IT needed – managed for you by experts
- Add users, locations, features & components as you need

01 | THE CHALLENGE

Big-business threats. SME budgets.

- Larger enterprises increasingly require SME suppliers to demonstrate NIS2 and CRA-aligned security and resilience as part of supply-chain assurance.
- Limited technology choices, multiple vendors & contracts create unnecessary complexity and extra admin tasks
- Downtime and limited IT capacity disrupt productivity and growth, while a cyber incident could be fatal for an SME
- Enterprise-level technology often feels out of reach for SMEs

Costly. Complex. Fragmented

02 | THE SOLUTION OMNIA SME

You Can Relax – It's all done for you

Connect. Protect. Detect. Continue: One scalable, modular solution, built around your business and your budget, reducing cost, complexity, IT management and admin tasks
