ATOMNIA®
Connected Cyber Resilience

Secure people, places, devices and operations
Connect everything. Stay connected. Full encryption
Total visibility. Always up to date. Re-tech Guarantee

Winners of Belgium Defence Institute's START2Def **award for Best Solution to Protect Critical Infrastructure 2026** and **CAP4LAND 2026**

CONNECTED CYBER RESILIENCE
for CHARITIES, NGOs and NFPs

"Belgian innovation that will soon be making a global impact"

Theo Francken – Minister of Defence & Foreign Trade

Failover faster. Block more threats. See everything. Stay operational.

THE CHALLENGE:
Charities Run on Trust

Your mission depends on people, information and services staying connected and secure. Donor and financial records, beneficiary data, staff and volunteer systems, partners and frontline services all need to remain available, when your teams are in the office, working remotely or operating in challenging locations.

Data protection and stringent compliance regulations demand stronger controls, clear accountability, evident continuity and proven resilience. For organisations working in remote or disrupted environments, always-on connectivity and secure data retention and access, cannot be a luxury.

THE SOLUTION: OMNIA
Because your mission can't stop when the network does

OMNIA Connected Cyber Resilience gives charities, NGOs and not-for-profits the resilience to keep people, services and critical information moving wherever your teams operate. From headquarters to remote offices and field operations, OMNIA brings secure connectivity, cyber protection, data security and visibility together in one intelligent platform. When connectivity fails or a cyber threat strikes, OMNIA helps keep your operations running, your teams connected, your data secure. Every resource should go towards your mission, not managing fragmented technology.

Built around your mission. Designed to keep you operational.

OMNIA's MEASURABLE BENEFITS: Proven. Trusted. Integrated. Mission-Ready.

Threat Intelligence
Real-time insights for faster decision-making

Detection Analytics
AI-driven anomaly detection, response & remediation

Best Block Rates
99.9% malware & 100% phishing & ransomware block rates

Always-on Operations
Failover in under 0.3seconds for continual connectivity

Secure Data
In-country gateways for data sovereignty

Future-Ready
Re-tech guarantee and continuous updates

MISSION AREAS OMNIA SUPPORTS:

- Service delivery
- Frontline
- Training
- Sensitive data
- Funds & fundraising
- Remote operations

WHY ATOMNIA:

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Winners of **Start2Def** (Belgian Defence Institute) Best Solution to Protect Critical Infrastructure 2026 and **CAP4Land** 2026
- Bespoke solutions can be developed in-house with quick turnaround
- World-leading technologies seamlessly integrated, then managed & supported 24/7, enabling vendors to be replaced without replacing the entire solution

ASK US ABOUT:

- ✓ Resilient, always-on connection, protection, detection and response
- ✓ Remote and on-the-move functionality
- ✓ Purpose-built air-gapped, in-country gateways for data sovereignty
- ✓ Dedicated algorithm & Layer 4 encryption
- ✓ Seamless integration with existing solutions
- ✓ No specialist internal IT required – fully managed and supported for you

Cybersecurity is no longer enough. Connected Cyber Resilience is the logical step.

ONE integrated solution. ONE intelligent device. ZERO compromise
