ATOMNIA®
Connected Cyber Resilience

Secure people, places, devices and operations
Connect everything. Stay connected. Full encryption
Total visibility. Always up to date. Re-tech Guarantee

Winners of Belgium Defence Institute's START2Def **award for Best Solution to Protect Critical Infrastructure 2026** and **CAP4LAND 2026**

"Belgian innovation that will soon be making a global impact"

Theo Francken – Minister of Defence & Foreign Trade

CONNECTED CYBER RESILIENCE for EDUCATION

Failover faster. Block more threats. See everything. Stay operational.

THE CHALLENGE: LEARNING CANNOT STOP

Education now depends on digital infrastructure. Learning platforms, student and pupil records, safeguarding systems, communications, cloud applications, examinations and campus services must remain available and secure, across classrooms, campuses, remote learning environments and connected devices.

At the same time, schools, colleges and universities hold vast amounts of sensitive personal data and face growing exposure to phishing, ransomware, data theft and operational disruption. GDPR, safeguarding obligations and cyber governance demand resilience, while already-stretched IT teams are expected to protect more users, more devices and more locations without disrupting teaching and learning.

THE SOLUTION: OMNIA BECAUSE LEARNING SHOULDN'T EVER STOP

OMNIA's Connected Cyber Resilience keeps education connected, protected and operational. It brings resilient connectivity, cyber protection, data security and continuous visibility together in one intelligent platform, helping keep teachers teaching, students learning and essential services running when connectivity fails or cyber threats strike.

From classrooms and campuses to remote learning, administration and connected devices, OMNIA provides one integrated solution, one intelligent device, fully managed and supported 24/7. Flexible contracts, low-to-no upfront costs and no-lock-in options help education providers strengthen resilience without diverting resources from teaching and student outcomes. OMNIA integrates with your existing technology and grows with your organisation, so you can deploy what you need today and add further capabilities as requirements evolve.

OMNIA's MEASURABLE BENEFITS: Proven. Trusted. Integrated. Education-Ready.

Threat Intelligence
Real-time insights for faster decision-making

Detection Analytics
AI-driven anomaly detection, response & remediation

Best Block Rates
99.9% malware block rates 100% phishing & ransomware

Always-on Networks
Uses all available connectivity simultaneously with failover in 0.3 seconds

Secure Data Control
Secures your sensitive data, everywhere

Future-Ready
Re-tech guarantee and continuous updates

EDUCATION AREAS OMNIA SUPPORTS:

- Digital infrastructure
- Data protection
- Digital learning
- Research
- Campus services
- Remote learning

WHY ATOMNIA:

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Winners of Start2Def (Belgian Defence Institute) Best Solution to Protect Critical Infrastructure 2026 and CAP4Land 2026
- Bespoke solutions can be developed in-house with quick turnaround
- World-leading technologies seamlessly integrated, then managed & supported 24/7, enabling vendors to be replaced without replacing the entire solution

ASK US ABOUT:

- ✓ Resilient, always-on connection, protection & detection
- ✓ Purpose-built air-gapped, in-country gateways for data sovereignty
- ✓ Defensive-grade Layer 4 voice, video and data encryption
- ✓ Seamless integration with existing solutions
- ✓ Zero-Trust remote access
- ✓ Built for multi-site and hybrid education environments

Cybersecurity is no longer enough. Connected Cyber Resilience is the logical step.

ONE integrated solution. ONE intelligent device. ZERO compromise
