ATOMNIA®
Connected Cyber Resilience

Secure people, places, devices and operations
Connect everything. Stay connected. Full encryption
Total visibility. Always up to date. Re-tech Guarantee

Winners of Belgium Defence Institute's **START2Def** award for Best Solution to Protect Critical Infrastructure **2026** and **CAP4LAND 2026**

"Belgian innovation that will soon be making a global impact"

Theo Francken – Minister of Defence & Foreign Trade

CONNECTED CYBER RESILIENCE
for HEALTHCARE and PHARMACEUTICAL

Failover faster. Block more threats. See everything. Stay operational.

THE CHALLENGE:
CARE DEPENDS ON TIME-CRITICAL CONNECTED SYSTEMS

Electronic health records, imaging and diagnostics, clinical systems, medical devices, laboratories, pharmacies, telehealth and connected facilities all depend on secure, reliable connectivity. When systems or devices become unavailable, the impact can go far beyond IT: delaying care, disrupting clinical operations and putting sensitive patient data at risk.

Healthcare organisations also face ransomware, data theft, supply-chain exposure and increasingly connected medical devices, while meeting strict privacy, security and continuity requirements. Resilience is no longer an IT concern it is essential to keeping care running.

THE SOLUTION: OMNIA
KEEP CARE CONNECTED, PROTECTED AND OPERATIONAL

OMNIA's Connected Cyber Resilience keeps clinical sites, medical devices, users and critical systems securely connected and visible — from hospitals and clinics to laboratories, pharmacies, remote facilities and home-based care. It combines resilient connectivity, cyber protection, secure Zero-Trust access, data protection and continuous visibility in one intelligent platform.

When connectivity fails, OMNIA can use available links to maintain communications; when threats emerge, integrated detection and response helps protect operations and sensitive data. Fully managed and supported 24/7, OMNIA integrates with existing infrastructure and scales as healthcare environments evolve, helping clinical teams **focus on care, not technology disruption.**

OMNIA's MEASURABLE BENEFITS: Proven. Trusted. Integrated. Care-Ready.

Threat Intelligence
Real-time insights for faster clinical decision-making

Detection Analytics
AI-driven anomaly detection, response & remediation

Best Block Rates
99.9% malware & 100% phishing & ransomware block rates

Always-on Operations
Uses all available connectivity simultaneously with failover in 0.3 seconds

Secure Patient Data
Protect patient, clinical & operational data everywhere

Data Sovereignty
Data sovereignty. EU Seal 3 sovereign solution

CARE AREAS OMNIA SUPPORTS:

- Hospitals
- Clinics
- Labs
- Telehealth
- Connected Devices
- Remote Care

WHY ATOMNIA:

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Winners of **Start2Def** (Belgian Defence Institute) Best Solution to Protect Critical Infrastructure 2026 and **CAP4Land** 2026
- Bespoke solutions can be developed in-house with quick turnaround
- World-leading technologies seamlessly integrated, then managed & supported 24/7, enabling vendors to be replaced without replacing the entire solution

ASK US ABOUT:

- ✓ Resilient, always-on connection & protection
- ✓ Secure IoT for medical devices, monitoring and remote care
- ✓ Purpose-built air-gapped, in-country gateways for data sovereignty
- ✓ Dedicated algorithm & Layer 4 encryption
- ✓ Seamless integration with existing solutions
- ✓ Dedicated AI-enhanced Cyber Command Platform connected to your own SOC / SIEM

Cybersecurity is no longer enough. Connected Cyber Resilience is the logical step.
ONE integrated solution. ONE intelligent device. ZERO compromise
