ATOMNIA®
Connected Cyber Resilience

Secure people, places, devices and operations
Connect everything. Stay connected. Full encryption
Total visibility. Always up to date. Re-tech Guarantee

Winners of Belgium Defence Institute's **START2Def** award for Best Solution to Protect Critical Infrastructure **2026** and **CAP4LAND 2026**

*"Belgian innovation that will soon be making a global impact"*

**Theo Francken – Minister of Defence & Foreign Trade**

# CONNECTED CYBER RESILIENCE for HOSPITALITY

**Failover faster. Block more threats. See everything. Stay operational.**

## THE CHALLENGE: THE INDUSTRY NEVER SLEEPS

Hotels, resorts, restaurants and travel businesses depend on PMS, booking platforms, payment systems, POS, guest Wi-Fi, digital room keys, loyalty systems, connected property technology and supplier networks to keep guests and operations moving. At the same time, high volumes of personal and payment data make hospitality a prime target for ransomware, phishing, fraud and data theft.

When connectivity or critical systems fail, the impact is immediate: check-in stalls, payments stop, rooms become inaccessible, staff lose access to essential systems and the guest experience suffers. With PCI DSS, data protection and growing cyber threats, resilience must protect both operations and reputation.

## THE SOLUTION: OMNIA KEEP EVERY GUEST EXPERIENCE CONNECTED

**OMNIA's Connected Cyber Resilience** keeps your properties, people, devices, applications and data securely connected and operational, from booking and check-in to payments, guest Wi-Fi, room systems and back-office operations. It combines resilient connectivity, cyber protection, Zero-Trust access, data protection and continuous visibility in one intelligent platform.

When connectivity fails, OMNIA uses available links to keep critical services running; when threats emerge, integrated detection and response helps protect your operations and data. OMNIA integrates with your existing technology and scales across properties — reducing complexity while helping your teams focus on what matters most: **delivering an exceptional guest experience.**

## OMNIA's MEASURABLE BENEFITS: Proven. Trusted. Integrated. Hospitality Ready.

**Threat Intelligence**
Real-time insights for faster decision-making

**Detection Analytics**
AI-driven anomaly detection, response & remediation

**Best Block Rates**
99.9% malware & 100% phishing & ransomware block rates

**Always-on Operations**
Uses all available connectivity simultaneously with failover in 0.3 seconds

**Secure Data Control**
Protect customer data & telemetry, everywhere

**Future-Ready**
Re-tech guarantee and continuous updates

## SUPPORTED AREAS IN HOSPITALITY :

- Hotels & resorts
- Restaurants & venues
- IoT & smart tech
- Travel & tour operators
- Transport & travel
- Leisure & entertainment

## WHY ATOMNIA:

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Winners of **Start2Def** (Belgian Defence Institute) Best Solution to Protect Critical Infrastructure 2026 and **CAP4Land** 2026
- Bespoke solutions can be developed in-house with quick turnaround
- World-leading technologies seamlessly integrated, then managed & supported 24/7, enabling vendors to be replaced without replacing the entire solution

## ASK US ABOUT:

- ✓ Resilient, secure, always-on connectivity & cyber command platform
- ✓ Purpose-built air-gapped, in-country gateways for data sovereignty
- ✓ Defence-grade Layer 4 voice, video and data encryption
- ✓ Connect & protect PCI DSS, smart locks, POS, cameras & IoT
- ✓ Guest Wi-Fi segmentation and secure access
- ✓ Securing supply chain & inventory

**Cybersecurity is no longer enough. Connected Cyber Resilience is the logical step.**

**ONE integrated solution. ONE intelligent device. ZERO compromise**
