ATOMNIA®
Connected Cyber Resilience

INTEGRATED SASE

Resilient SASE Architecture That Protects Everything Everywhere

Best-of-breed security technologies integrated and managed through sovereign SASE frameworks, delivering up to 99.9% block rates and unifying advanced, multi-layered security technologies into one powerful solution that protects users, data and infrastructure everywhere.

99.9 %+ malware block rate

100% phishing prevention

Zero-Trust access

In-country data sovereignty

01 | THE CHALLENGE

Security gaps appear everywhere.

- Fragmented tools and disconnected security layers
- Remote, mobile and cloud users outside the traditional perimeter
- Growing exposure to malware, phishing and zero-day threats
- Compliance pressure and limited visibility across traffic and data

Complex. Disconnected. Exposed.

02 | THE SOLUTION

INTEGRATED SASE: Unified Cyber Resilience At The Edge.

A sovereign cloud-managed security layer that unifies ZTNA, SWG, CASB, and FWaaS across every user, device, application and location

- Users
- Devices
- Branches
- Cloud

ZTNA · CASB · SWG · FWaaS

- Secure apps
- Data
- Internet

Continuous inspection · Centralised policy · Always-on protection

03 | WHAT IT PROTECTS

Every user. Every edge. Every environment.

Users & devices · Branch sites · Cloud applications · SaaS, IaaS & PaaS

Remote & mobile work · Data centres · Internet Traffic · Multi-cloud environments

04 | BUSINESS IMPACT

Stronger protection. Simpler control.

Security everywhere
One policy framework for users, devices, apps & data

Reduce complexity
Replace fragmented point products with one integrated service

Better user experience
Scale up and down monthly, as the need arises

Built for compliance
Stronger controls, visibility and consistent protection

05 | WHAT IT DELIVERS

Verify. Inspect. Protect.

Verify → Inspect → Control → Protect → Monitor

Zero-Trust. Continuous inspection. Centralised enforcement.
Real-time prevention. Unified visibility

06 | KEY FEATURES

Enterprise-grade, best-performing cybersecurity.

- 99.9% block rates – the best on the market today
- Zero-trust network access (ZTNA)
- Cloud Access Security Brokers (CASB)
- Data Loss Prevention (DLP)
- Firewall as a Service (FWaaS)
- Web filtering, IPS and DNS security
- Cloud or on-premises deployment
- Centralised policy, monitoring and reporting
- Continuously updated threat intelligence and reporting

07 | WHY ATOMNIA:

Proven protection. Sovereign by design.

The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts

ATOMNIA-developed pure-play packet-based SD-WAN

EU SEAL-3 sovereign technology with global design, integration, deployment, management & 24/7/365 support

Flexible solution & terms, eliminates lock-ins

Multi-award-winners for Defence projects START2Def 2026 & CAP4Land 2026

08 | LET'S CONNECT

Are You Ready to protect your teams, data & reputation?

Stay ahead of threats and compliance requirements with Integrated SASE built for connected cyber resilience
