ATOMNIA®
Connected Cyber Resilience

Secure people, places, devices and operations
Connect everything. Stay connected. Full encryption
Total visibility. Always up to date. Re-tech Guarantee

Winners of Belgium Defence Institute's START2Def **award for Best Solution to Protect Critical Infrastructure 2026** and **CAP4LAND 2026**

CONNECTED CYBER RESILIENCE
for LEGAL and FINANCE

"Belgian innovation that will soon be making a global impact"

Theo Francken – Minister of Defence & Foreign Trade

Failover faster. Block more threats. See everything. Stay operational.

THE CHALLENGE: MAINTAIN TRUST, SECURITY, CONFIDENTIALITY AND CONTINUITY

Banks, insurers, investment firms, legal practices and professional services organisations handle highly sensitive financial, legal, personal and client data across offices, cloud platforms, trading and case-management systems, remote users and third-party services. They must keep this information confidential, available and protected in transit while maintaining uninterrupted operations.

Ransomware, data theft, fraud, credential compromise, insider risk and third-party exposure can quickly become operational, financial and reputational crises. At the same time, DORA, NIS2, GDPR and other regulatory requirements demand demonstrable controls, resilience, incident response and accountability. The challenge is not simply securing data, it is proving that critical services and sensitive information remain protected, connected and available when disruption strikes.

THE SOLUTION: OMNIA
PROTECT EVERY INTERACTION. EVERY CLIENT. EVERY DAY

OMNIA's Connected Cyber Resilience combines resilient connectivity, defence-grade Layer 4 encryption, cyber protection, Zero-Trust access, data sovereignty and continuous visibility in one intelligent platform. Layer 4 encryption protects voice, video and data in transit, while resilient multi-link connectivity helps maintain critical services when connections fail. Integrated detection and response provides visibility across users, sites, devices and applications, helping organisations detect threats and maintain control. Built around existing infrastructure, OMNIA supports regulation-ready operational resilience, secure remote access, third-party connectivity and sensitive data protection without adding another layer of fragmented technology. Fully managed and supported 24/7. **Protect what matters most: your data, your clients and your ability to operate.**

OMNIA's MEASURABLE BENEFITS: Proven. Trusted. Integrated. Resilience-Ready.

Threat Intelligence	Detection Analytics	Best Block Rates	Always-on Operations	Secure Data Control	Data Sovereignty
Real-time insights for faster decision-making	AI-driven anomaly detection, response & remediation	99.9% malware & 100% phishing & ransomware block rates	Uses all available connectivity simultaneously with failover in 0.3 seconds	Defence-grade encryption, with optional customer-specific encryption keys	Purpose-built, in-country gateways, with option to be air-gapped

WHO OMNIA IS FOR:

- Commercial banks
- Insurance providers
- Legal firms
- Wealth & Asset management
- Contact centres
- Professional services

WHY ATOMNIA:

- The only company globally with 2 x double-accredited SD-WAN Subject Matter Experts
- Winners of **Start2Def** (Belgian Defence Institute) Best Solution to Protect Critical Infrastructure 2026 and **CAP4Land** 2026
- Bespoke solutions can be developed in-house with quick turnaround
- World-leading technologies seamlessly integrated, then managed & supported 24/7, enabling vendors to be replaced without replacing the entire solution

ASK US ABOUT:

- ✓ Resilient, compliance-enabling solutions
- ✓ DORA-ready operational resilience
- ✓ Defence-grade Layer 4 voice, video and data encryption
- ✓ Customer-specific algorithm and encryption keys
- ✓ Zero-trust, secure remote access
- ✓ Re-tech guarantee and continuous updates
- ✓ AI-driven cyber command platform
- ✓ C-suite and case-specific network segmentation

Cybersecurity is no longer enough. Connected Cyber Resilience is the logical step.
ONE integrated solution. ONE intelligent device. ZERO compromise
